

Test Report

1. Client

* Company : Winix Inc.

* Address : 1280-10, Jeongwang-dong, Siheung-si, Gyeonggi-do, Korea

2. Test Device : Plasmawave™, Winix Air Washer

3. Test method : Sampling of air-borne influenza virus at regular intervals while operating the test device followed by titration on MDCK cell.

4. Testing environment

1) Chamber size : 1m³

2) Temperature : 22 ± 2℃

3) Relative Humidity : 50-60%

5. Test Result : Reduction rate of live influenza virus(%)

	0 time	20min	40min	60min
Plasmawave™	0	87.5	97.3	99.6
Winix Air Washer	0	93.9	99.7	>99.9

* Remark : The results are obtained by the test devices provided by the client.
